IN THE CLAIMS

1 – 20. (Previously Canceled);

21. (Currently Amended) A light guide plate, comprising:

first and second main surfaces facing each other,

at least one lateral surface connecting the first and second main surfaces,

a plurality of first triangular prisms formed on the first main surface and aligned in a row to a first direction, each having a first vertex angle; and

a plurality of second triangular prisms formed on the second main surface and aligned in a row to a second direction, each having a second vertex angle different from the first vertex angle,

wherein the first vertex angle ranges from about 100° to about 120°, and the second vertex angle ranges from about 120° to about 140°.

22. (Previously Presented) The light guide plate of claim 21 wherein the first vertex angle is obtuse.

23. (Cancelled)

24. (Currently Amended) The light guide plate of claim ~~23~~ 21 wherein the first vertex angle is about 108°.

MacPherson Kwok Chen & Heid LLP
1762 Technology Drive, Suite 226
San Jose, CA 95110
Telephone: (408) 392-9250
Facsimile: (408) 392-9262

25. (Previously Presented) The light guide plate of claim 21 wherein the second vertex angle is obtuse.

26. (Cancelled)

27. (Currently Amended) The light guide plate of claim ~~26~~ 21 wherein the second vertex angle is about 135°.

28. (Previously Presented) The light guide plate of claim 21 wherein the second direction is substantially perpendicular to the first direction.

29. (Previously Presented) The light guide of claim 21 wherein at least one of the plurality of first triangular prisms has a first prism surface and a second prism surface, and wherein the first prism surface and the second prism surface includes a concavo-convex pattern.

30. (Previously Presented) The light guide of claim 29 wherein the concavo-convex pattern has a triangular prism shape extending along the at least one of the plurality of first triangular prisms.

31. (Cancelled)

MacPherson Kwok Chen & Heid LLP

San Jose, CA 95110
Telephone: (408) 392-9250
Facsimile: (408) 392-9262

32. (Previously Presented) The light guide plate of claim 29, wherein the concavo-convex pattern has a rounded corner.

33. (Withdrawn)

34. (Withdrawn)

35. (Withdrawn)

36. (Withdrawn)

37. (Withdrawn)

38. (Currently amended) A liquid crystal display, comprising:

a liquid crystal display panel;

a backlight assembly; and

a module that accommodates the liquid crystal display panel and the backlight assembly,

wherein the backlight assembly comprises:

a light guide plate comprising:

a first surface having a first ~~light~~ prism ~~control~~ pattern, the first prism pattern comprising a plurality of first prisms aligned in a row to a first direction, the plurality of first prisms having a first triangular cross-sectional shape; and

a second surface having a second prism pattern, the second prism pattern comprising a plurality of second prisms aligned in a row to a second

direction, the plurality of second prisms having a second triangular cross-sectional shape,

wherein the first surface faces the second surface,

wherein the first triangular cross-sectional shape has a first vertex angle that is different from a second vertex angle of the second triangular cross-sectional shape, and

wherein the first vertex angle ranges from about 100° to about 120°, and the second vertex angle ranges from about 120° to about 140°.

39. (Cancelled)

40. (Cancelled)

41. (Previously Presented) The light guide plate of claim 38, wherein the plurality of first prisms have a first prism surface and a second prism surface, and

wherein the first prism surface and the second prism surface includes a concavo-convex pattern.
